Dear Dr. Seddon:

The Division of Oil, Gas, and Mining is requesting your concurrence on the eligibility and effect determination for the proposed Coal Hollow Mine. The project area was inventoried by Montgomery Archaeological Consultants in June of 2005. Enclosed please find a report from this inventory, entitled "Cultural Resource Inventory of Alton Coal Development's Sink Valley – Alton Amphitheater Project Area, Kane County, Utah". Fifteen archaeological sites were located during this inventory. Additionally, I have enclosed please the IMACS forms for these fifteen sites (42KA1313, 2041 – 2044, 2068, 6104 – 6110, 6124, and 6126).

As directed by Utah Code Section 9-8-404, the Utah Division of Oil, Gas, and Mining (UDOGM) is providing you with the following written evaluation of the proposed undertaking's effect on historic properties and respectfully requests your concurrence with the following determinations. UDOGM has determined that fourteen of the sites are historic properties (sites eligible for the National Register of Historic Places). Seven of these eligible, historic properties will be affected by the proposed coal extraction activities. Please see the table below for specific determinations of eligibility and effect.
